

How could new climate change adaptation measures effect you?

Come weigh in and join the conversation about new policies and programs for the Marin County Safety Element.

The County is in the process of updating the Housing and Safety Elements of the Countywide Plan (the County's General Plan). The Countywide Plan serves as the guiding vision for the future of unincorporated Marin.

The Safety Element contains the County's goals, programs and policies for adapting to climate change and keeping the public safe from environmental hazards, such as wildfire, flooding, sea level rise, seismic events, and extreme heat.

Join the County on Tuesday, **April 5th from 6:00 – 7:30 PM** for an interactive online workshop to discuss Safety Element policy and program ideas. This is the third in a series of workshops. There will be live Spanish interpretation
